OBJECTIVE

Aspiring professional seeking a challenging and rewarding entry-level position to apply and further develop my skills in a dynamic work environment while contributing to the team and organisation's success. Eager to learn, adapt, and contribute positively to achieve personal and company goals.

EDUCATION

Aditya College of Engineering and Technology, Surampalem, AP
Bachelor of Technology in Electronic and Communication Engineering (2019 – 2023)

Narayana Junior College, Kakinada, AP
Board of Intermediate (2017 – 2019)

Karnuya Public School, Narsipatnam, AP
Secondary Board of Education (March 2017)

INTERNSHIP

Frontend Developer Intern
Prodigy InfoTech Mar2024–Apr2024—Remote

- Designed and developed responsive web applications using HTML5, CSS3, and JavaScript (ES6), ensuring cross-browser compatibility and mobile optimization. Translated company and client requirements into clean, functional UI components using modern frontend technologies.
- Translated company and client requirements into clean, functional UI components using modern frontend technologies.
- Collaborated in an agile environment, gaining hands-on experience with real-world development workflows and version control (Git/GitHub). Strengthened problem-solving skills and front-end development knowledge through daily coding tasks and project implementation.

PROJECT

Full-Stack Food Ordering Website

Technologies Used: MongoDB, Express.js, React.js, Node.js, REST APIs, JWT, HTML5, Tailwind CSS, JavaScript (ES6), Bootstrap, Git, GitHub

- Developed a fully functional, responsive food ordering web application using the MERN stack to deliver a seamless user experience and robust backend architecture. Implemented secure user authentication using JWT (JSON Web Tokens) for protected registration and login processes, ensuring safe and personalized user sessions.
- Designed and built a responsive front-end with React.js, utilizing HTML5, Tailwind CSS, Bootstrap, and JavaScript (ES6) for dynamic and mobile-friendly user interfaces.
- Created an intuitive cart system allowing users to add, remove, and manage food items before placing orders. Developed RESTful APIs with Node.js and Express.js to handle all CRUD operations for restaurants, menu items, user data, and order processing.
- Integrated MongoDB as the primary database, leveraging MongoDB Compass for efficient data modeling and management. Utilized Git and GitHub for version control, ensuring smooth collaboration and codebase management following best development practices.

TECHNICAL SKILLS

Programming Languages: Python
Frontend and Backend Technologies: HTML5, CSS3, JavaScript(ES6), Bootstrap, React, MongoDB, Express.js, Tailwind CSS, SQL, SQLite

BEHAVIORAL SKILLS

Skills: Communication, Team Collaboration, Self-Motivated, Team player, Problem-Solving, Fast learner, Creativity, Time management
